

Apparel Hang-Tag UHF Inlay Placement

Inlay placement guide for apparel hang tags with Impinj Monza R6-P or NXP UCODE 9 UHF inlays.

Hang-tag size: 80 x50 mm typical.

Antenna footprint: 64 x12 mm strip with Monza R6-P; varies with UCODE 9.

Keep printed text and adhesive labels out of this strip.

Mounting: face-stock side, top of the tag. Avoid metal seam grommet placement that overlaps the antenna.

For the retail apparel case study see </case-studies/retail-apparel-uhf-rfid-source-tagging/>.

For the GS1 SGTIN-96 encoding template see the same downloads page.
